

Connecting the Dots Conference 2020
Call for Papers

About Connecting the Dots

Held annually, **Connecting the Dots** is Canada's largest educational and professional development experience focused on braille, technology and employment for people who are blind or partially sighted.

Organized by the CNIB Foundation, the conference features workshops and keynote talks. All sessions will be 50 minutes in length, including Q&A time.

The goal of the conference is to bring people together to partake in dynamic experiences and informative conversations about braille, technology and employment by exposing them to new products, emerging trends, innovative ideas, research findings, and networking opportunities.

Share your unique perspectives and knowledge

Have an idea for a session? Submit a proposal! Presenters will receive complimentary access to the conference for the day of their presentation. A discounted registration fee will also be provided for presenters wanting to attend the conference on a day they are not presenting.

Call for Papers

Important: All proposals must be received by **Friday, May 15, 2020.**

Name:

Title/Affiliation:

Area of Expertise:

Address:

Email:

Telephone (000-000-0000):

Abstract of session (Maximum 75 words):

Main objectives of session (For example: What will the attendees learn from this session):

Additional presenter and their titles:

Presenter bio (Maximum 200 words):

Do you require assistance producing handouts in accessible formats (braille, large print, etc.):
